

Do you grow your own vegetables?
 Do you find that you have excess
 produce at harvest time?

Like my Dad there are many talented Home Growers in our community and when harvest time comes there is usually a lot of extra produce.

If you would like to give your extra fresh produce to families and individuals who are going through a difficult time in the Sunbury and Macedon Ranges Region please contact CareWorks and talk to Nicky.

You can either drop your vegetables off at CareWorks or we can arrange a volunteer to pick up your produce from your home.

We appreciate the support and help that the community gives CareWorks.

thank you
